P.A. Manual Introduction

Students who are late in developing phonological skills may have problems in reading, writing and spelling that may persist throughout their life. It is essential to target the development of adequate phonological skills at whatever age it is required.

Children's phonological skills develop in a predictable sequence that moves from gross to fine discrimination.

This manual offers a range of activities to help students work at the **Phoneme Level** of development. The activities are designed to be offered on a frequent and regular basis, for about fifteen minutes per session. The activities are designed to be oral.

The manual consists of a hierarchy of tasks that become increasingly more challenging. The **Goal and Activity Overview** indicate the sequence and degree of difficulty of the activities.

All activities have a set of instructions for a task and eight or sixteen lists of 20 words for the student to work on. The instructional activity may run as follows:

1. **Read instruction to students**
2. **Students provide an oral answer**
3. **Give students the correct answers**
4. **Record score out of 20**
5. **Rotate through the word lists on the Activity page until the students demonstrate a consistent performance (~17/20)**

Sample Activity

Activity number

Activity 1

Goal: To name the initial sound

Level: CVC (Short Vowels)

Description of words in list

Instruction: Listen to these words. Say the first sound.

Student instruction

Given word

Correct answer in bold

1	cab	c	hack	h	dad	d	lack	l
2	bib	b	fib	f	nil	n	shed	sh
3	jet	j	fan	f	mod	m	man	m
4	gam	g	him	h	jib	j	vim	v
5	bob	b	let	l	patch	p	net	n
6	did	d	chum	ch	rim	r	rash	r
7	jag	j	cob	c	met	m	gob	g
8	shack	sh	hid	h	jam	j	lid	l
9	much	m	lag	l	fob	f	rag	r
10	dell	d	gab	g	kid	k	thud	th
11	chuck	ch	doll	d	nag	n	loll	l
12	fit	f	then	th	bad	b	jell	j
13	guess	g	ruck	r	loll	l	tuck	t
14	dip	d	hit	h	shell	sh	lit	l
15	cut	c	jess	j	shock	sh	mess	m
16	bed	b	hip	h	kit	k	nip	n
17	god	g	gut	g	less	l	shut	sh
18	kill	k	led	l	lip	l	red	r
19	than	th	hod	h	hush	h	nod	n
20	dim	d	mush	m	bed	b	pill	p

Task Modification

How To Support Students Who Are Having Difficulty

- Provide visual supports for the number of sounds in the word or the sound position you are focusing on
- Change the way you present the word
 - Emphasise target sound
 - Within blending tasks, say the sounds more quickly (closer together)
 - For segmentation tasks, say the sounds more slowly
- Provide forced alternatives e.g. is the first sound a 's' or a 't'
- Provide lots of modeling

NOTE: If the activity is **too easy** for the student, simply move on to the next activity

Note

It is important for the teacher and students to say the voiced and voiceless sounds correctly. Voiceless sounds are produced by pushing out air without using the voice.

Voiceless	Voiced
p	b
t	d
c/k	g
s	z
ch	j
f	v
sh	/zh/ (as in treasure)
th (thin)	th (that)
Other Voiceless	Other Voiced
h	w, l, r, m, n, ng & all vowels
